

CAP TARPAULIN

PVC TARPAULIN FOR MAKING COVERS IN GENERAL

PROVEN QUALITY AND STANDARDS

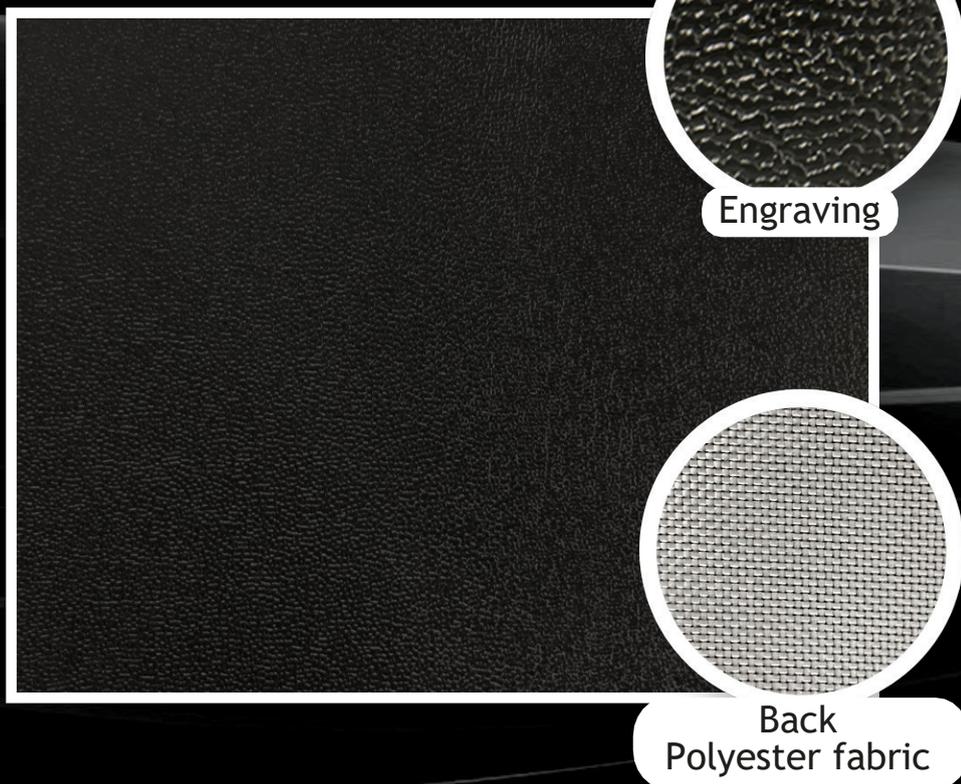

www.locomotiva.com.br

Features:

- Flexible PVC tarpaulin with textured engraving (still);
- Reinforced with polyester fabric;
- Excellent in handling, sewing and welding (electronic/heat);
- Light, flexible, resistant and highly durable;
- The material is suitable for various applications, such as soft top covers, boat protection, motorcycle covers, machine covers in general, seat covers, punching bags, etc.;
- When used as soft top cover on pick-up trucks, cargo is safer and more secure;
- The product maintains the same standards as the original tarpaulins that come as standard on soft top cover;
- 12-month warranty.

Material sample

Conservation and Cleaning:

- Do not use chemical or abrasive products;
- Just wash with mild soap and water.
